Court Management software for New York State Justice Courts

Optional Parking Module

Parking is a business...

For whatever reason your town or village created your parking ticket workload, the management usually falls to the court.

You have 3 choices:

- 1) Do it manually in house
- 2) Hire an outside service
- 3) Computerize in house

Several factors are involved in your best choice. Volume, labor, revenue needs, and revenue generated are a few of the factors.

If you choose to computerize in house, the SEI optional Parking Program is the SMART choice...

Our Windows Parking Program makes parking management easy. Aside from easy data entry and data retrieval, there is the ability to look at multiple cases at the same time. You can keep notes on parking cases and partial payments easy to track and manage.

PREED is also available for fast and easy plate checks along with being able to easily fill in the name, address, and expiration dates of New York Vehicles.

Payment due mailings are generated based on your specifications. Based on the age of the ticket, the program automatically calculates the amount due. Each of your ticket types can have up to four fine and penalty amounts.

All letters, reports and calendars are accessible so you can modify them to meet your needs.

Payments may either be taken in full or as partial payments. The program tracks the amount due and reports the current payments.

Adjournment histories are kept for each ticket. If a defendant has multiple tickets, all tickets can be adjourned to the same date and time.

Collections can increase too. When a person comes to pay a ticket, the system recalls all of the outstanding tickets for the vehicle.

Integration with The CourtRoom Program's checkbook and State audit and control report makes it easy to handle bank deposits and reporting.

Scofflaws are tagged just prior to expiration. A scofflaw diskette is produced and sent to Albany. Any New York registration with 3 or more overdue tickets within the past 18-months can be scofflawed.

The system also identifies drivers with more than 25 pending tickets. Statute allows these registrations to be revoked.

Reports make it easy for you to track and reconcile your open and closed tickets.

These reasons make the Optional Parking Module the SMART choice.

The Parking Program	
New Parking customer Includes installation & training	\$2,395.00
New Parking customer no onsite visit for installation or training	\$1,800.00
Annual Maintenance - all parking customers	\$400.00
Instructor Travel (based on distance)	Call

The CourtRoom Program is a registered trademark of Service Education, Inc.

Why should our court switch to the New Windows Parking Program?

- Integrates with the New Windows CourtRoom Program®
- Access multiple parking tickets at one time. Add a new ticket and lookup an existing ticket without losing any information
- Reports and letters can be modified by the users to meet court needs.
- Keep adjournment history, partial payments and notes on each ticket.
- Case search screen displays amount due based on age of ticket.
- User defined parameters so you can identify special fields of information you want included on your screens
- Offers Windows features such as
 - Ability to use mouse or shortcut keys
 - Preview of reports and forms before printing
 - Toggle back and forth between CourtRoom Program® and Parking Program
 - No fussing with printers. Any printer that prints in Windows prints from the Parking Program
